2. Employment

2.1 All Yukon figures from the Labour Force Survey are three-month moving averages based on 92% coverage.
2.1 Yukon figures are rounded to the nearest hundred; because of this, figures may not sum to totals.

Other NAICS categories are available by contacting Yukon Bureau of Statistics.

2.6 The number of beneficiaries receiving total income benefits includes other types of benefits than those displayed, but excludes employment insurance claimants receiving employment and support measures benefits.

3. Consumer Prices

3.1 The Consumer Price Index (CPI) measures price changes over time but should not be used to compare costs between provinces and cities. As of the May 2007 CPI release, the weights of various items in the basket of goods and services used to calculate the index have been updated from 2001 to 2005. In addition, the CPI base year (the period for which the value 100 is assigned to the index) has changed from 1992 to 2002. Therefore, data from this and future publications should not be compared with previously released data.

4. Rental Units

4.1 & 4.2 The Yukon Rental Survey covers all buildings with four or more units. Rentals with less than four units (such as houses, suites and duplexes) are excluded from the survey.

6. Construction

7. Resources

7.1 Canadian prices are based on the conversion of US prices using the 'noon' exchange rate at month-end by Bank of Canada. Prices of gold and silver are a.m. fix prices at month-end. Prices of lead, zinc and copper are London Metal Exchange "cash seller" prices at month-end.
7.4 'Total' includes other types of refined petroleum product sales. Domestic sales are by reporting companies, are exclusive of exports and sales to other reporting companies, and are adjusted for exports and imports by non-reporting companies.
7.4 'Aviation gasoline' includes all gasoline-type fuels for piston-type aircraft engines.
